Contractors Equipment
INSURANCE · INLAND MARINE

DEALER & FINANCE PARTNER PROGRAM

FOR EQUIPMENT DEALERS & FINANCE COMPANIES

Insure your customers' equipment before it ships or funds

We set up a free quote page with your company name and logo. Your customer requests a quote in a few minutes, and we name you correctly on the certificate.

Photo: Oto Zapletal, CC BY-SA 4.0

What we do for your buyers

- Same-day quotes for many types of contractors' equipment
- Name the lender or lessor as loss payee on the certificate
- Send the certificate of insurance to you once coverage is bound
- Schedule each machine by serial number, at replacement cost or actual cash value
- Add new purchases to the same policy as the customer buys them
- One equipment floater for machines they own, finance, rent from others, or rent out
- Tools and attachments, plus general liability and commercial auto if needed

What you get

- **Your own page**, with your name and logo, to share in emails, on invoices or from your website
- **Every request tagged to you**, so we know who sent it
- **No cost**, nothing to buy and no software to learn

How it works

1. **Request your page**
   A two-minute form. Tell us if you want your logo on it.
2. **We set it up**
   You get a link like contractorsequipmentinsurance.com/partners/your-company
3. **Share the link**
   Customers request a quote there. Someone follows up with them directly.

Quotes are subject to underwriting review and eligibility; not every risk or piece of equipment qualifies, and same-day turnaround is not guaranteed. Coverage is provided only by the policy issued, and its terms, conditions and exclusions control. A certificate of insurance is issued only after coverage is bound.
